Terms:

Sign—any structure, building, wall or other outdoor surface, or any device or part thereof, which displays or includes any letter, word, model, banner, flag, pennant, insignia, device or other representations used for announcement, direction, advertisement or identification. The word “sign” includes the word “billboard,” but does not include the flag, pennant or insignia of any nation, state, city or other political unit, nor public traffic or directional signs. The word “sign” includes temporary and portable devices as well as permanent signs. The “area of a sign” shall be construed to include all lettering, wording and accompanying designs and symbols, together with the background, including framework and bracing which is incidental to the display itself, when viewed from its widest silhouette. Where the sign consists of individual letters or symbols attached to or painted on a surface, the area shall be considered the smallest rectangle which can be drawn to encompass all of the letters and symbols.

Sign, advertising—a sign which directs attention to a business, profession, service or industry, conducted, sold, manufactured, assembled or offered for sale other than upon the premises where the sign is displayed.

Sign, business—a sign which directs attention to a business, profession or industry conducted on the premises or to products sold, manufactured or assembled upon the same premises upon which it is displayed.

§27-408. Signs.

1. Application. [Ord. 545]

2. General Intent. [Ord. 545]

3. The following sign regulations shall be observed in all districts:

A. In all districts, except the University District, each residence shall be required to display its street number upon the structure, or within the front yard, with numbers or letters at least 3 inches in height.

B. This Section shall not apply to the University District.

C. The following signs shall be permitted in all districts, and no permit shall be required to erect such signs:

(1) Temporary signs announcing a campaign, drive or event of a civic, philanthropic, educational or religious organization; provided, such sign shall not exceed 32 square feet in area and shall be removed immediately upon the completion of the campaign, drive or event.

(2) Signs offering the sale or rental of the premises upon which the sign is erected; provided, that the area of any such sign shall not exceed 2 square feet and not more than one such sign shall be placed on the property unless such property fronts on more than one street, in which case one sign may be erected on each street frontage.

(3) Temporary signs of contractors, developers, architects, engineers, builders and artisans, erected and maintained on the premises where the work is being performed; provided, that the area of such sign shall not exceed 32 square feet; and, provided, that such sign shall be removed upon completion of the work.

(4) No trespassing signs, signs indicating the private nature of a road, driveway or premises, signs controlling fishing or hunting on the premises, provided that the area of such sign shall not exceed 2 square feet.

F. No sign shall project more than 12 inches from the building facade to which it is attached, except that signs may project at 90-degree angles in commercial districts as provided in subsection .5.D of this Section.

G. No sign that is a part of, or is supported by, a building shall be erected upon the roof of such building, nor shall such sign extend above the height of the building.

H. The height of freestanding signs from curb level to the top of the sign shall not exceed 15 feet in all areas except commercial districts where they may extend to 25 feet in height.

Signs shall not project over or onto any public right-of-way.

J. Signs may be lighted with non-glaring lights, or may be illuminated by shielded floodlights. No red, green or amber lights shall be permitted, and lighting shall be screened from adjacent properties. No lights of intermittent, flashing or animated types shall be permitted. C. For multiple unit dwelling complexes, one sign, not to exceed 2 square feet per building, shall be permitted identifying the name, address and telephone number of the owner or manager. In addition, one sign which exclusively identifies the multiple unit dwelling complex by its commonly known name, said sign not to exceed 32 square feet, shall be permitted.
